(54) METHOD FOR PREVENTING REFLECTION OF EXTERNAL LIGHT OF PLANE DISPLAY

(57)Abstract:

PURPOSE: To provide the method for preventing reflection of external light of plane displays, such as liquid crystal display, plasma display and EL display.

CONSTITUTION: This method for preventing reflection of external light of the plane displays consists in tightly adhering and sticking the surface, on the side where an antireflection layer is not laminated, of a filter constituted by forming a hardened film at least on the front surface of a transparent plastic film or sheet and laminating the antireflection layer on the hardened film of the front surface to the display surface of the plane display.
